

This site needed to be built in a very short timeframe (something like 4 weeks from start to finish) in order to get it online in time for Christmas, by far the busiest time of the year for the client. With a bit of metaphorical elbow grease, the site made it online and Spicers received enough orders to relieve them of their entire Christmas stock! The site is updated via our bespoke CMS and is fully e-commerce enabled. If you're looking for a hamper (Christmas or otherwise), picnic basket or food-based type gift affair :-), give them a try, they're great (and very helpful too).
